NSSF PAC, the nonpartisan, Federal Election Commission-registered multi-candidate political action committee of the NSSF, is a cornerstone of NSSF's government relations strategy. Contributions to the NSSF PAC are used for political purposes to support pro-firearms and ammunition industry, pro-Second Amendment and pro-sportsmen candidates on a bipartisan basis for election or re-election to federal office. Contributions are voluntary and individuals may refuse to contribute without reprisal. Contribution amounts stated are merely suggestions— individuals can contribute more or less than suggested. The maximum annual individual contribution is \$5,000. The NSSF PAC will not favor or disfavor anyone based on the amount they contribute or decision not to contribute. Contributions from corporations, foreign nationals without permanent U.S. residency, federal government contractors or by persons in the name of another person are not accepted. Contributions to the NSSF PAC are not deductible for federal income tax purposes as charitable contributions.
